INFORMATION AND COMMUNICATION TECHNOLOGIES IN TOURISM 1998

Book Condition: New. Publisher/Verlag: Springer, Wien | Proceedings of the International Conference in Istanbul, Turkey, 1998 | Information and Telecommunication Technologies increasingly propel the tourism industry and have become one of the most important determinants of the competitiveness for both the public and the private sectors. It is quite evident that tourism organisations which fail to take advantage of the emergent opportunities introduced by technology will lose considerable market share and suffer strategic disadvantages. Business processes re-engineering is essential therefore...
