

## Rajiv Gandhi: His Vision of India of the 21St Century Science, Technology And National Development

By Pawan Sikka

2007. Hardcover. Book Condition: New. 316 Rajiv Gandhi, as Prime Minister of India, in 1984-89, brought with him a brightness and hope, as well as a believable vision of the 21st Century-qualities then badly needed to speed up the process of achieving the techno-economic development of India. He projected an image of modernity and infused a new confidence among people; this was marked by a vision largely techno-critic and relying heavily on science and technology. He was stated to be a man in hurry, aspiring to make India a technologically advanced nation by the next two decades, with the inputs of modern science and technology. His name is synonymous with the ushering in of Computer Revolution in India. He gave a clarion call to the nation to take a quantum leap into the 21st century. It was his dream of modernizing India, of bringing her fully technologically, economically and socially into the new millennium. It was a dream of a strong, proud and united India, which march in to the 21st century with courage and confidence. He was a crusader of modern science and technology and elucidated his inspiring vision in clear and confident terms, often contradicting the dominant discourse...
