Ulu Burun) shipwreck discovery, as noted by Jo Marchant in Nature magazine, may transform our understanding of ancient times, casting also new light on the origins of writing. One artifact recovered from what was likely a Phoenician vessel was the oldest writing board set ever found: a dyptich -- two plates attached on a hinge. Moreover, there were hundreds of large oxhide-shaped copper ingots and buns, some marked with signs duplicating those in scripts from Cyprus and Crete. One must note here that David W. Packard, co-founder of computer giant Hewlett-Packard, wrote his college dissertation on an undeciphered ancient script of Crete. What is the connection between ancient writing and the modern digital world? Handheld devices and computer hardware such as PCs operate by means of software code that converts human language information into machine language. Ancient signs, characters and symbols were similar inventions that converted spoken language into written language. The discovery of writing had far-reaching consequences for everyday life on our planet. Literacy brought humanity into a richer world. It opened up...
