It is hoped that these stories will be found useful for training the imagination, for leading the child to more intelligent observation of the phenomena about him, and for creating an interest in Natural Science. They have been used in connection with science lessons given little children, many of them containing ideas and opinions expressed by the children themselves during their observations and experiments. Thanks are due the following for stories and advice: Sara E. Wiltse, and Ginn Co., author and publishers of Stories for Kindergartens; Andrea Hofer, editor of Child-Garden; G. Anna Raymond; W. W. Speer, author of Lessons in Form; and Professor W. S. Jackman, teacher of science, Chicago Normal School.
