The class of true synthetics, although they represent only a comparatively small fraction of the above number, has received many valuable additions since the last edition of this book, in 1896, as the following r6snm6 of some of the more important groups will show. The para-phenetidin nucleus, which furnishes us with the valuable antipyretics Phenacetin, Phenocoll, Lactophenin, etc., has been drawn upon for such new combinations as Kvrofin.
