BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. GAO reviewed the Department of Defenses (DOD) acquisition plans for the ALE-50 towed decoy system and the Radio Frequency Countermeasures System (RFCM), which includes a more advanced towed decoy, focusing on whether towed decoys could improve the survivability of certain Navy and Air Force aircraft. GAO noted that: (1) DODs effort to improve the survivability of its aircraft through the use of towed decoys has demonstrated positive results; (2) according to test reports and test officials, the ALE-50 has done very well in effectiveness testing and the future RFCM decoy system is expected to be even more capable; (3) the Air Force is actively engaged in efforts to field towed decoy systems on a number of its current aircraft, including the F-15, F-16, and B-1, while the Navy is planning towed decoys only for its future FA-18EF; (4) in the year 2010, almost 50 percent of the Navys tactical fighter inventory will still be current generation fighter aircraft such as the FA-18CD, even if new FA-18EFs are procured at the rates desired by the Navy between now and then; and (5) improving the survivability of the FA-18CD, as well as other current Navy and Marine Corps aircraft, potentially offers the opportunity to save additional aircraft and aircrews lives in the event of future hostilities and also addresses congressional concerns expressed for FA-18CD survivability. This item ships from La Vergne, TN. Paperback.
