Book 1 The Abduction Book 2 The New Civil War Book 3 The Next Generation Fights On New World Order Rising is about a future war that is very likely to happen. As always, Wars begin because the rich and powerful wish to get richer and more powerful. But of course it won't be the rich and powerful doing the fighting. They have an army of super-soldiers-viciously-trained from toddlers to adults who will follow any order-based and hidden for years in the many FEMA camps spread throughout America. This war will begin in America, for America must be defeated, for if America remains free she will continue to set the example for the rest of the world to fight and to keep fighting. The battlefield won't be far away in some distant land, it will be right here at our homes and farms and businesses. It will be fought by people who carry their families with them, people who love their families and will die for them. Even though the American military won't be involved, their massive armament will be. \*\*\*\* Ten years have passed. Seventeen-year-old Jocelyn is now staunch at Carter's side as his lieutenant.
